Describe Setting <p>The bridge is located in the town of Bramwell, WV on County Route 20/5 (Bloch Street) and crosses over the Bluestone River.</p>	
Description of Buildings or Site (Original and Present) <p>The Yon-Peraldo Memorial Bridge is located on County Route 20/5 and consists of replacing the existing bridge that crosses over Bluestone River on Bloch Street. The existing bridge was built in 1930 by the Virginia Bridge and Iron Company. The bridge consists of two identical, simple riveted pony truss spans (SSPT) and is supported at each end by full-height stone masonry abutments and intermediately by a stone masonry solid pier. The overall length of the structure is 136'7" and the roadway width is 15'2". The bridge is located within the Town of Bramwell at the northern end of the Bramwell Historic District.</p>	
Alterations <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If yes, describe Bridge seats at Abutment Two were repaired with reinforced concrete and the roller nest bearing devices and replaced in 1960. Bridge was painted in 1978, contractor unknown. In 1985 & 1991 the District Forces repaired downstream and upstream truss diagonals. In 1995, the deck was paved.	
Additions <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If yes, describe In 2003 repair plates were installed in the web of Floorbeam One in Span Two by District Forces.	
Describe All Outbuildings N.A.	
Statement of Significance: The WVDOH is recommending that the Yon-Peraldo Memorial Bridge is eligible for the National Register of Historic Places under Criterion C for its engineering significance. Also, it is recommended that the bridge be included in the Bramwell Historic District.
